Career Objective:

As a junior developer, I'm deeply immersed in programming and constantly eager to explore new technologies. Whether it's mastering emerging frameworks like Vue JS or diving into machine learning libraries, I thrive on tackling challenges and making meaningful contributions to innovative projects. With a relentless pursuit of growth and a keen eye for detail, I am poised to seize every opportunity for advancement in my development journey.

Education:

Bachelor of Science in Applied Computer Science

Chuka University, Chuka, Kenya

Graduated: December 2022

Technical Skills:

- ✓ Languages: PHP, Python, JavaScript
- ✓ Frameworks/Libraries: Tailwind, Bootstrap, Vue.js, React, Laravel
- ✓ Databases: MySQL
- ✓ Version Control: Git
- ✓ Development Tools: Visual Studio Code, Sublime Text
- ✓ Operating Systems: Windows, Linux

Intern:

Junior Software Developer

Melhor Systems Limited, Nairobi, Kenya

Oct 2022 – Dec 2022

Achievements:

- ✓ Designed and developed new websites and managing their content using HTML, CSS, Javascript and Bootstrap.
- ✓ Designed and developed user interfaces using Vue JS and React, ensuring seamless user experiences and optimal performance.

Professional Experience:

Junior Software Developer

Melhor Systems Limited, Nairobi, Kenya

Jan 2023 – Present

Achievements:

- ✓ Collaborated with development teams to develop and implement responsive web applications using Tailwind and Bootstrap frameworks.
- ✓ Designed and developed user interfaces using Vue JS and React, ensuring seamless user experiences and optimal performance.
- ✓ Contributed to the development and maintenance of backend systems using Laravel and PHP, enhancing system reliability and scalability.
- ✓ Utilized MySQL to design and optimize databases, ensuring efficient data storage and retrieval processes.
- ✓ Assisted in troubleshooting and debugging software issues, providing timely resolutions to ensure uninterrupted system operations.
- ✓ Actively participated in code reviews, providing constructive feedback and suggestions for code improvements.
- ✓ Stayed updated with emerging technologies and industry best practices, continuously enhancing technical skills and knowledge.

Projects:

https://davidthumbi.vercel.app/

MeTube

Developed MeTube, a youtube clone built on top of React and integrated with YouTube API for a youtube like video experience. The link to the project is here.

Steamy Kitchen

Steamy kitchen is a Vue Js application about recipes where the data is gotten from a free recipe API and Vue Js mastery is used to display the data from the API in a well crafted manner. The link to the project is [here](#).

Additional Skills:

- ✓ Strong problem-solving abilities and analytical skills.
- ✓ Excellent communication and collaboration skills.
- ✓ Ability to work effectively in fast-paced environments and meet tight deadlines.
- ✓ Adaptability and willingness to learn new technologies and tools.
